What APC do

APC believe data and connectivity are crucial for business success. Their solutions ensure they are available when you and your customers need them, providing certainty in a connected world. Any vendor can sell you products, with APC you get comprehensive tools and resources with an unparalleled reputation for excellence.

From battery backups that safeguard against outages, to full-scale data centre infrastructure, these offers can help your business become more efficient, reliable and connected.

APC Solutions

Power

When power is interrupted, or fluctuates outside safe levels, a UPS will instantly provide clean battery backup power for plugged-in, sensitive equipment. Talk to Evotec about your specific protection needs to quickly find a customised UPS Solution.

The back-UPS battery backup offers guaranteed power and surge protection for wireless networks, computers, and other electronic in your business. models supply battery backup during outages and unsafe voltage fluctuations, as well as provide protection from damaging surges and spikes. they are available in tower or floor styles and together with a variety of standard features, they are the perfect choice to protect your data and keep you connected.

Server Rooms

APC Server room products are scalable and adaptable data centre IT Room physical infrastructure solutions for 1 to 5 racks that have a low total cost of ownership, are fast and easy to configure and deploy, and ensure your business-critical accessibility is maintained. These complete and integrated solutions feature power, cooling, racks, security and management components that are developed to work together with integrated server room design and management software. Not only do these solutions offer superior power, backup and cooling, they make it look good too.

Choose the server room solutions with;

- High density capability, easy redundancy, reduced mean time to repair and reduced human error
- Fast deployment speeds, able to be scaled up or down and reconfigured
- Software to power, cool, monitor, manage and service your server room with ease and confidence

Small and Medium Data Centres

APC delivers legendary reliability every step of the way. The Data Centre Physical Infrastructure options provide a strong, secure framework that is able to grow and adjust with your needs, while staying in budget and optimising network performance.

When Data Centre Infrastructure management software is installed and your data centre is operational, you can collect and analyse data and control power and processes system-wide or on individual devices.

Evotec along with APC offer a complete portfolio of services to assess, plan, build and operate your data centre. Transform your data centre with reliable, expert products developed to help you maintain uptime when every minute counts!

Security and Environmental Monitoring

Physical threat monitoring solutions from network closets to data centres.

Offering premium security and environmental system monitoring capable of video surveillance and monitoring to record human activity enabling users to detect intrusions, providing temperature, humidity, door contact, dry contact, vibration, smoke, 2 way audio monitoring, spot leak and rope leak monitoring. Additional features include user-defined alerts making APC security and environmental monitoring perfect to protect your IT assets from all threats.

By incorporating a Access Control Unit enable remote locking/unlocking capabilities and badge access privileges for IT enclosures. Administrators can easily configure access control profiles for individual employees, configure scheduled access to equipment for maintenance purposes and view audit trails. various alarm notifications are available to indicate a compromised security state such as forced entry and door position.

About us

With a portfolio unequalled in its breadth and flexibility, over 30 years' experience and three national offices, Evotec are committed to designing, implementing and supporting innovative technology solutions based on the unique requirements of your business.
