

## Evotec

Evotec is an Australian technology provider committed to providing innovative solutions which drive true business benefits to the customer. With over 30 years in business, we design, implement and support solutions that are based on the unique requirements of your business. We consider your organisation's practices and goals, and we design a tailored solution that will assist you today, and in the future. We have offices in Sydney, Melbourne and Brisbane, and a national network of support partners. We understand the importance of reliable technology and offer your organisation business-grade services levels and response.

## Evotec History

1988

1991

1995

2005

2013

Today

1988

Evotec commenced operations in Sydney in 1988 as 'PHC Voice and Data Engineering', the company was focused on cabling infrastructure solutions.

1991

In 1991, a sister company 'Telephone Solutions', was established, specialising in the design and deployment of PABX hardware and applications..

1995

In 1995, 'PHC Computers' was established, installing and supporting network and desktop PC solution.

2001

In 2001, 'PHC Voice and Data Engineering', 'Telephone Solutions' and 'PHC Computers' merged, forming Evotec.

The name Evotec was derived from "evolving technologies", highlighting our commitment to understanding new technologies and their ability to improve our customer's business.

2005

During 2001, Evotec expanded operations to Brisbane. The company's Sydney, Melbourne and Brisbane offices are complemented by a National Partner Network, allowing our customers to rely on sales and support throughout Australia.

During 2005, Evotec expanded operations to Brisbane. The companies Sydney, Melbourne and Brisbane offices are complemented by a National partner Network, allowing our customers to rely on sales and support throughout Australia.

2013

In 2013, Evotec obtained Tamco, expanding Evotec's reach.

Today

Today, our customers can select solutions from business telephone systems, information technology, carriage, infrastructure, broadband solutions and business support.
