InfoBrief

More about Meraki

What Meraki do

Meraki create the simplest, most powerful IT solutions, making networking easier, faster and smarter. Pushing the boundaries, experimenting and creating innovate solutions that just work.

Meraki Solutions

Simplify Security

Managing security to protect users and their data is not only essential, but can also be extremely challenging for IT administrators and end users alike.

No matter how vulnerable there is a solution to protect your users' data and devices, no matter the location, the network, or the

application. The powerful defence features give you complete peace of mind and let you focus on what matters most.

Next Generation Wi-Fi

Support new and emerging applications while delivering high performance and reliability.

With Meraki Wi-Fi 6, you can;

- Alleviate Wi-Fi congestion

- Support the growing number of devices emerging as IoT rolls out

Ensure you are equipped to handle the ever-increasing demands of multiple devices and faster data rates

Meraki wireless technology is expertly designed and engineered and optimised for the real world to give you a better user experience. Its the simplest, most secure and intelligent solution available to manage your wireless infrastructure.

Transform your digital workplace
Smart work environments foster creativity, collaboration and innovation.

Transform your services for networking, physical infrastructure, building and facilities to create a digital workplace for both more efficient operations and robust digital customer experiences.

Meraki helps you do business much faster though the support of technology.

About us
With a portfolio unequalled in its breath and flexibility, over 30 years' experience and three national offices, Evotec are committed to designing, implementing and supporting innovative technology solutions based on the unique requirements of your business.
