

[More about VMware](#)

What VMware do

VMware streamlines the journey for organizations to become digital businesses that deliver better experiences to their customers and empower employees to do their best work. VMware software spans compute, cloud, networking and security, and digital workspace.

VMware Solutions

App Modernisation

Accelerate time to market for new software features and reduce the cost and risk of operating applications.

Evotec Infobrief | 1300 133 996 | www.evotec.com.au

VMware Tanzu, a family of products and services for modernizing applications and infrastructure, enables you to deliver better

software to production—continuously.

- Build Cloud-Native Apps
- Evolve Existing Apps
- Run and Manage Kubernetes in Multiple Clouds

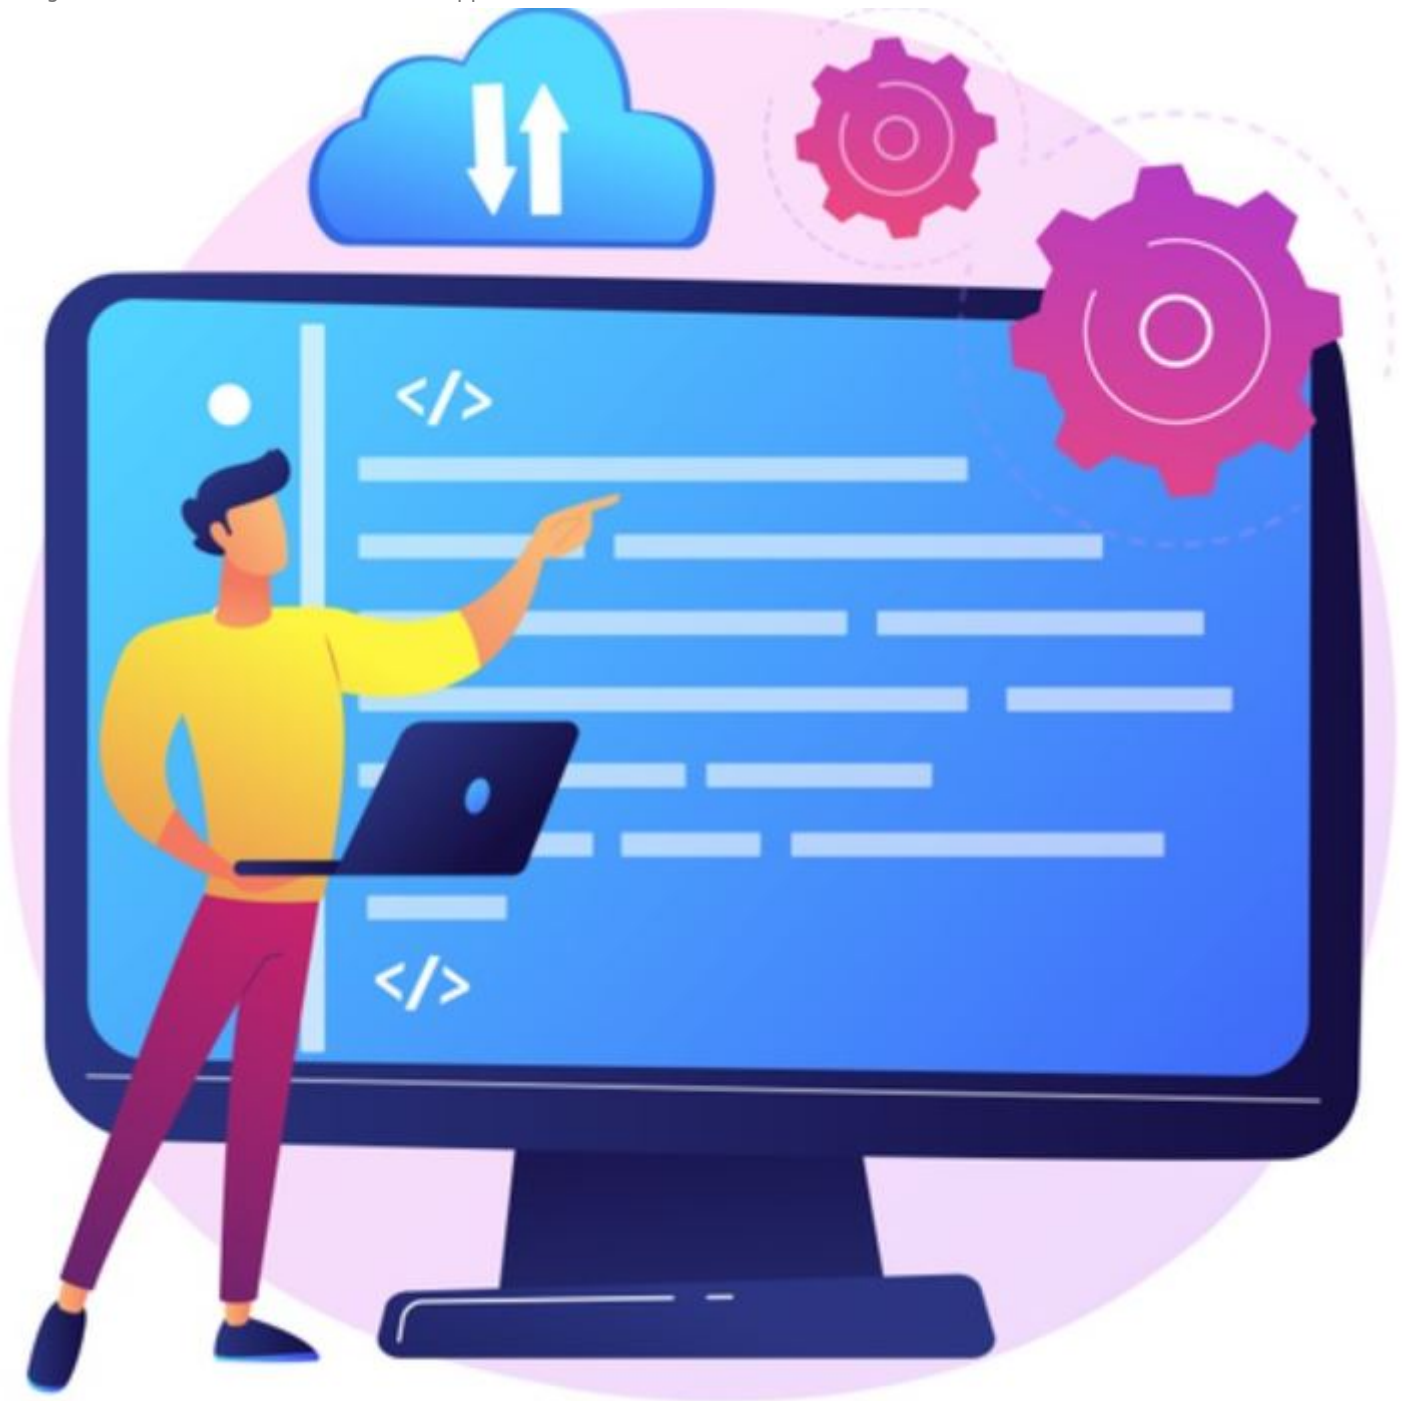

Multi-Cloud

Build, manage and operate across clouds with consistent infrastructure and operations.

Our multi-cloud solution, built on VMware Cloud Foundation, gives you freedom to run applications from the data center to the cloud to the edge.

- Migrate Existing Apps Without Rewriting Them
- Modernize Existing Apps Through Containerization

- Integrate New Cloud Services to Extend Application Value

Virtual Cloud Network

Deliver a modern network defined entirely in software and built for the digitally distributed business.

A Virtual Cloud Network powered by VMware NSX provides a seamless, secure, software-defined networking layer from data center to cloud to edge.

- Build an End-to-End Network Architecture
- Simplify Hybrid Operations and Extend Intrinsic Security, Policy Consistency and Automation

Digital Workspace

Empower employees to work anywhere, anytime, and on any device without compromising security.

VMware Workspace ONE, the intelligence-driven digital workspace platform, unifies the management of all your end user environments (mobile phones, laptops, physical and virtual desktops, and related apps).

- Promote User Choice and Flexibility
- Improve Security and Simplify IT Management
- Support an Agile Remote Workforce

Intrinsic Security

Leverage your infrastructure to strengthen your approach to security across any app, any cloud, and any device.

Intrinsic security takes advantage of unique, built-in visibility and control across workloads, networks, workspaces, and clouds to better secure the enterprise.

- Simplify Security Against Advanced Threats with a Single Console, Platform and Agent
- Increase Visibility with Threat Intelligence from Over 1 Trillion Security Events per Day

About us

With a portfolio unequalled in its breadth and flexibility, over 30 years' experience and three national offices, Evotec are committed to designing, implementing and supporting innovative technology solutions based on the unique requirements of your business.
